Professional Summary

SAP Basis Administrator with 3+ years of experience in SAP S4HANA, Oracle DB, transport management, Change Request Management (ChaRM), system refreshes, kernel upgrades, and Azure-hosted SAP landscapes. Skilled in production release management, SAP performance monitoring, troubleshooting, upgrade execution, and operational support. Proven experience handling 20+ major releases and 200+ monthly transports while ensuring system availability, deployment stability, and audit compliance. Certified in AZ-120 and PL-300.

Skills

SAP Basis: Change Request Management (ChaRM), STMS, SAP NetWeaver, Kernel Upgrades, SPAM and SAINT, SNOTE, SPDD and SPAU, Client Administration, System Refresh, Troubleshooting, Transport Management System, RFC Configuration, SAP Router

SAP HANA and Azure: SAP S4HANA, Azure VMs, Availability Sets, Backup and Recovery, High Availability, OS Monitoring

Database: Oracle DB, BRTOOLS, RMAN, SQL, CTS Plus, Solution Manager

Tools and Technologies: Jira, Git, Docker, Java, Spring Boot, REST APIs

Work Experience

Tata Consultancy Services

Kolkata, India

SAP Basis Administrator

Sep 2023 – Present

- Designed end-to-end transport and change management activities using Change Request Management (ChaRM) and STMS, maintaining a deployment success rate above 99% across SAP landscapes.
- Played a key role in 20+ major and 30+ minor production releases, ensuring smooth cutovers, dependency alignment, and stable go-live activities without Sev-1 incidents.
- Oversaw cross-system deployments involving retrofit handling, dual-track synchronization, and release coordination across Development, QA, Pre-Production, and Production systems.
- Strengthened system reliability through kernel upgrades, SPAM and SAINT updates, SNOTE implementations, and SPDD and SPAU remediation activities during upgrade cycles.
- Enhanced platform performance by decreasing incident resolution time by approximately 30% through proactive monitoring using ST22, ST02, ST03N, ST04, SM21, and EarlyWatch reports.
- Supported complete system refresh activities including BDLS execution, logical system updates, client copy validation, and post-refresh consistency checks.
- Improved operational stability by resolving recurring background job failures and refining batch schedules, resulting in an 18% improvement in job success rates.
- Maintained audit compliance by documenting and tracking more than 200 transports monthly with approvals, traceability, and SOX-aligned evidence.

Wipro

Hyderabad, India

SAP Basis Trainee

May 2022 – Jul 2023

- Worked with STMS, SM37, and ST22 for transport management, job monitoring, and dump analysis activities.
- Assisted in client copy execution, BDLS activities, and post-refresh validation processes.
- Supported kernel patching, SPAM and SAINT updates, and basic SAP Basis troubleshooting activities.
- Used Jira for incident tracking, change management coordination, and activity documentation.

Projects

ENGIE Release Management	2023 – 2025
- Streamlined global release cycles by automating Change Request Management (ChaRM)-driven workflows and minimizing manual deployment activities across multiple SAP S4HANA systems. - Delivered stable production cutovers by collaborating with functional, infrastructure, and database teams to validate transports and mitigate high-risk deployment issues. - Supervised more than 200 transports per month while ensuring dependency accuracy and zero post-release disruptions.	

SAP System Landscape Optimization	2023 – 2024
- Enhanced a 3-tier SAP S4HANA landscape on Azure by redesigning CTS Plus routes, validating system topology, and integrating Solution Manager workflows. - Executed upgrade activities including kernel updates, SPAM and SAINT implementations, rollback planning, and deployment validation processes. - Minimized recurring dumps and background job failures by implementing stronger monitoring baselines and preventive technical fixes.	

Certifications

- AZ-120: SAP on Azure
- PL-300: Power BI
- SAP Basis Administration
- Java Full Stack Development

Education

B.Tech, Computer Science & Engineering	Lendi Institute of Engineering & Technology GPA: 7.2	2018 – 2022
Intermediate (MPC)	Sri Chaitanya Junior College Percentage: 77%	2018
SSC	Sri Chaitanya Techno School GPA: 7.4	2016
